## VLADIVOSTOCK NEXT.

### WILL GET JAPANESE ATTENTION

Tie Pass will be the Northern Outpost on the line from Port Arthur.

#### Bulletin Special.

London, March 28.—Vladivostok will now receive the attention of the Japanese. They have withdrawn their forces 35 miles south of the Russian front, and Cassack scouting parties can find naught but Chinese bandits. This is taken to mean that the Japanese will hold Tie Pass as the northern limit of their conquest and will push eastward for the Pacific outlet. A triple alliance between England, Japan and United States has again been suggested.

St. Petersburg, March 28.—The situation in Poland is viewed with undisguised anxiety and things are steadily growing worse. Finland also is demonstrating in a hostile manner. The Czar is still considering the peace question.

St. Petersburg, March 25.—The Russian rear guard is now occupying a line of fairly strong natural positions 34 miles south of Gunshu pass, the centre being the railroad village of Sipinghai and the flanks covering the roads on either side, which apparently, it is the intention to defend long enough to force the Japanese to show their hands. The Russians may, however, have no intention of making a serious stand, especially as all the correspondents continue to report rumors of wide turning operations on both flanks, indicating a probable basis. In fact the correspondents believe a resumption of hostilities on a grand scale and an important battle are improbable inside of three months.

Paris, March 25.—The prospects of peace between Russia and Japan assumed a more definite and almost a tangible aspect as the result of the announcement of the resumption of negotiations for a Russian loan. The postponement of the loan occurred through the stand taken by the financial element against proceeding while the uncertainties of war continue, while a willingness to resume negotiations was construed as meaning that their strong influence finally has prevailed with the authorities at St. Petersburg. The announcement of the resumption of negotiations took definite form in a communication to syndicate of agents de change who form an influential element on the bourse, holding government credentials. The effect of the first announcement was to stimulate the market and particularly Russian securities. A reaction occurred on fears as to the effect the heavy demands of the loan would have on the market and doubts concerning the uses to which the loan will be put. However it seems to be the accepted view of financiers that the proceeds of the loan will not be employed to the further continuing of the war.

The receipt of an official despatch at St. Petersburg on March 20, saying that the Japanese were approaching Vladivostok, is said to have induced the determination to seek a pacific solution. On the other hand, it is believed that Japanese proximity to Vladivostok promises to be a chief obstacle in the way of peace as diplomats conversant with the situation say that Japan will seek to avert peace until she possesses Russia's only outlet to the Pacific coast, still murdering armenians.

#### Still Murdering Armenians.

##### Bulletin Special.

London, March 28.—The persecution of Christians in Armenia grows steadily worse and there are forebodings that the country is ruined.

#### May Help the C.N.R.

##### Bulletin Special.

Halifax, March 28.—A bill was introduced in the legislature today to loan MacKenzie and Mann \$1,075,000 to purchase the Yarmouth and Halifax and Middleton and Victoria Beach railways and add them to their system of lines. Cassel Goossens.

#### New York Reservoir in Danger.

##### Bulletin Special.

New York, N.Y., March 28.—The big 85,000,000 reservoir is in imminent peril of bursting on account of floods. Watchmen have been detailed to patrol the villages in the path of the threatened devastation.

## SASKATOON BRIDGE

### CARRIED AWAY BY ICE.

Jam Occurred, and when it broke carried down one end of the new Bridge.

#### Bulletin Special.

Saskatoon, March 28.—A big ice jam today carried away the temporary C. P. R. bridge structure. The water had been rising with unprecedented rapidity owing to the early spring and the floes piled high on the bank at last snapped the piles, carrying away the north end of the bridge with a thunderous roar. The ice, however, is quite rotten and running away rapidly and it is expected the service will be working today.

The C. P. R. are using every effort to reduce delay in traffic, and pile drivers are already starting operations. It is hoped the damage may be repaired in a few days. The same bridge was carried away last spring though at a much later date, and the new steel structure now in course of erection, was to replace it.

## BATTLEFORD FIRE

### DESTROYS VALUABLE PROPERTY

Prince Bros. Store and Warehouse totally destroyed—The firm will Rebuild.

#### Bulletin Special.

Battleford, March 28.—Shortly after midnight the store and one of the warehouses of Prince Bros. was totally destroyed by fire. The staff worked until after eleven opening up the spring goods and are unable to account for the origin of the fire as there were no signs of anything wrong when they closed up. The portion of the stock destroyed was valued at \$30,000. The store was the original building on the present town site, having been erected by A. MacDonald in 1882. The firm will proceed with the erection of their new building at once.

#### The Deal is Off.

##### Bulletin Special.

Victoria, March 28th.—Arrangements to purchase the Esquimalt and Nanaimo railway by the C. P. R. have been broken off.

#### Boating on the Streets.

##### Bulletin Special.

Thamesville, Ont., March 28th.—The river is rising rapidly and the town is almost flooded. Business is suspended, water being in every store. Boating is in order on almost every street.

#### Aged Civil Servant Gone.

##### Bulletin Special.

Halifax, March 28.—John Wallace, Assistant Receiver General and the oldest member of the civil service of Canada, died Sunday aged 83 years.

## PARLIAMENT

Ottawa, March 18, 1905.

## Still Waiting

The past week has been uneventful in Parliament, and has marked comparatively little progress in routine business. Day by day the work of the session was taken up, and while there was no absolute obstruction, as was the custom at previous sessions, still everything went very slowly, awaiting expected announcements in regard to the educational clauses of the Autonomy bills. From day to day an announcement was expected, and from day to day there was disappointment when no announcement was made.

The publication of Premier Baul-  
tain's open letter in the early part of the week caused considerable comment, which finally resulted in a general attack by the Opposition on the Government, which took place Thursday. A Government announcement was expected on Friday, but none was made and routine business was disposed of.

## Nationalization of Telephones.

The only new matter introduced was a motion by the Postmaster-General for the appointment of a special committee to consider the question of improvement of telephone service, or in other words, to consider the question of nationalization of telephones. Messrs. McLean and Barr, of the Opposition, and Logan, of the Government side, strongly commended the action of the Postmaster-General.

## A Cross Fire of Petitions.

A feature of the week has been the presentation of hundreds of petitions, chiefly from Ontario and Quebec, the Ontario petitions against the educational clauses of the Autonomy bills and the Quebec petitions in their favor. It was specifically alleged, and was not denied, that both sets of petitions emanated from the Conservative party leaders, who are attempting once more the game they were so successful for so many years under the premiership of the late Sir John Macdonald, whose policy was to rule by dividing the people into two hostile camps, each one imbued with the idea that only they could save the country from the clutches of their opponents. It remains to be seen whether such a policy can be worked successfully without such a leader.

## A Party out of Business.

The decadence of Conservatism in Quebec is marked not only by the elimination of the Conservative party from the local legislature and a setting out of party lines as between Liberals in the legislature, but by the ceasing of publication of "Le Journal" the French-Conservative paper of Montreal, which for several years has been issued from the "Star" office in support of Conservative party interests. In its closing editorial the "Journal" gives the party which it has hitherto supported a harder shot than could be given by any of its friends.

## Announcement on Monday.

It is expected that the tension in regard to the Autonomy bills will be relieved early next week and that the business of the session will not be unduly lengthened thereafter.

## Prospects of Spring.

Winter has been very steady until today, when the first rain of the season fell. Snow is still very deep all over the country, and until the first day or two has shown very little tendency to disappear. The contrast between the conditions here and in the West is not only very marked, but very remarkable. In Ontario the country is under three feet of snow, while seeding is in progress in the West. Although this is an exceptional condition, it will go far to demonstrate that there is not such a radical difference after all between the winter climate of these two important sections of Canada, and will do something to promote the flow of surplus population from Eastern Canada to the Northwestern prairies instead of to the United States.

## Regarding Hockey as it is Played in Ottawa.

Hockey, which was all the rage a week or two ago, is now at its finish for the season. In this connection, and as hockey is necessarily the winter game of Canada, a few remarks on the recent series of matches between the Rat Portage team and the Capitals, for the Stanley Cup, may not be out of order.

In the first place it is necessary for western people to understand that the eastern cities, while nominally the players are amateurs, really they are professionals. There is a similarity of requirement between lacrosse and hockey, so the lacrosse players of the summer, or may well be, the hockey players of the winter. Where cities are large and allowed sports numerous, would so hard indeed if some arrangement could not be made to keep together an aggregation of clever players in both lacrosse and hockey. The Ottawa team has held this position of cham-

ions for some years simply because the team has been more completely professionalized than any of the other teams in the country. They are unquestionably clever and determined players, but it is not by the cleverness of their legitimate play that they have retained the championship, certainly not in the case of the recent matches with the Rat Portage eleven.

Naturally the sympathy of a western man is with a western team, and therefore allowances have to be made for prejudice in any criticism that may be offered. Still there are certain glaring facts which it is as well should be set down in print, so that the position may be understood as it has not generally been. Hitherto there has always been sufficient doubt as to the respective merits of the challengers and the challenged playing for the Stanley Cup, so that adverse criticism might be set down to disappointment. In this case, however, there was no question as to the respective abilities of the two teams. The Rat Portage men were undoubtedly and admittedly the better players; and while explanations of the fact that they did not win are necessarily unsatisfactory it is still desirable that the reasons should be publicly known.

The Ottawa team has not only been trained to play hockey, but have also been trained even more systematically and thoroughly in the art of putting their opponents out of business by physical disability. There are certain tricks which may with due care be successfully played which will have the effect of disabling an opponent without attracting the attention of a referee, especially if the referee does not want to have his attention attracted. This was the specialty of the Ottawa team, and accounts for the fact that they are today champions of Canada.

The proof is simple. Under western rules two referees are required, one to watch the puck, the other to watch the players. Under eastern rules only one referee is required. It is impossible for him to do more than watch the puck, leaving the players largely to their own devices. The first match between the teams was played under western rules, with two referees, the result being a score of 3 to 3 in favor of the challengers. The second game was played under eastern rules, with a score of 4 to 2, in favor of the home team. The third game was played half under western and half under eastern rules. In the first half under western rules, the Rat Portage men were easy winners. In the second half under eastern rules, they lost by a shot. Most of them were seriously damaged and some actually disabled during the last half. They did not complain, and possibly had no reason to, as they played under the rules and the rules practically permitted the Ottawa men to use the peculiar training which they had made a specialty of for so long, to the best advantage.

No one suggests for an instant that had the three matches been played under western rules—that is had it been hockey, not slugging—the Rat Portage would have won, and won easily. It may be said that slugging was as fair for one as for the other, and certainly the Rat Portage men did not leave everything in that line to the Ottawa men in the last half, but the facts are that the Rat Portage men were trained to play and the Ottawa men trained to slug, with the natural result that when the players came against the sluggers and the latter had the advantage in the referee, the players were out of it. The results of these matches demonstrated the facts above stated so clearly that there is a general tendency in the east now to adopt the western rule of two referees. Certainly it is simply foolishness for a team who have trained to play hockey to challenge a team who have trained to slug, under rules which practically permit the slugger to play his peculiar game without set or hindrance.

## Ross Bros. Ltd

EDMONTON, ALTA.,

ARE THE SOLE AGENTS FOR THE CELEBRATED

Peters  
Double Cylinder  
Force Pump

The annexed cut (Fig 60) represents our Double Cylinder Force Pump. This is positively the easiest working and most durable pump on the market. Its capacity is far greater than any other pump; and for a stock pump it has no equal. This pump is constructed with two solid brass cylinders and, each one working independently, discharge their full capacity at every upward and downward stroke of the handle; therefore our pump will discharge twice as much water as any other pump, with half the amount of labor. Its ease in operating is based on the fact that it has two rods, one on each side of the pipe, and the one balancing the other, overcomes all the hard labor of pumping water. A four-year-old child can easily operate the pump at a depth of 50 feet.

Its durability is far superior to any other pump for the following reasons:

1. It has solid brass cylinders which do not wear out the leathers.
2. The cylinders being at the bottom of the well never lose their priming neither rust nor wear.
3. It has chilled valve seats which
4. The leather used for plungers and check valves is the very best obtainable.
5. It has no stuffing boxes.
6. The cylinders are stationary, working nothing but the plunger balls.
7. It having double the capacity of any other pump, requires but half the labor.
8. The pipes and rods used are all galvanized.

The Capacity of these Pumps are as follows.

3½ in. Double Cylinder	- - -	1300 Gallons per hour
3 in. " " "	- - -	1000 " "
2½ in. " " "	- - -	700 " "

In price they compare favorably with many of the cheaper and more inferior pumps sold. They are not a new thing or an experiment as we sold a large number last season and in every instance they gave perfect satisfaction.

## Building Hardware

Of every description. We carry the largest stock, best assorted and our PRICES ARE LOWER than any other firm west of Winnipeg. We solicit assorting orders from the trade which will be filled promptly and at lowest prices.

Ross Bros. Ltd

## THE CIVIC APPOINTMENTS.

By the appointment of a Secretary Treasurer for the city on Friday evening, the council freed themselves from a spectre which has been flitting about the horizon for weeks and threatening occasionally to swoop down upon their deliberations to the destruction of peace, order and decorum. This question has laid in the background at every meeting, liable at any time to crop up and create a double, whatever the opinion as to the wisdom of amalgamating the offices of the finance commissioner and Secretary Treasurer, there is a certain satisfaction in knowing that the question is settled and that some one is responsible for the condition of the city books and the city purse. By a ruling of His Worship at a recent meeting of the council the city has been without a secretary treasurer since the beginning of the year and some time since it was announced that Mr. Kinnaird's bonds had elapsed. It is something therefore to know that the responsibility has been fixed and forfeit money will again guarantee the safe keeping of the city's funds.

Viewed retrospectively the question appears to have been one of form rather than of fact. The point of issue was whether the finance commissioner should bear the name of Secretary Treasurer or whether the man who does the work should have whatever honor or discredit may attach to the title. The finance commissioner can not, will not, and should not be expected to actually receive and handle the city funds. The question was whether the man who does so should be directly responsible to the council or to the finance commissioner. The decision was given to the latter method though it was not made clear in discussions of the principles involved that the council had the power to hand over the responsibility for and authority over one department of the city's business to one commissioner, nor to in any measure relieve the responsibility or lessen the authority of the others regarding that department.

The appointment of the city auditor for the current year was in the complicated nature of things municipal a practical dismissal of the auditor of last year. It has been established by precedent of some years standing in the city that the city auditor held office during good conduct. The appointment of his successor before Mr. nature of a dismissal.

If so intended what was the ground for castigation? It was because Mr. Tomlinson had made a report to the council. If an auditor may not report to his employer, how is he to be of service?

Was it because the report made recommendations for alterations in the accounting system? If so now is an auditor to root out what he considers a faulty system?

Was it because the report appeared in some respects uncomplimentary to the accountant? If so, is not the detection and indication of such things the very purpose of the employment of an auditor?

Was the cause in any way connected with the presentation of the preliminary report by the auditor? If so the action is equally a rebuke to the finance committee which adopted the suggestions of the report and to the council itself for adopting the report of the finance committee.

It may have been that the discussion which took place on Friday evening could be reproduced, would throw some light on the animating purpose of the aldermen in this matter, but what was said on that occasion can now never be known except by statement of the aldermen themselves. The meeting was practically private and the minutes give no indication of the ground on which the action was taken.

## BECAUSE PROPERLY CURED.

Pharaohs have been called a "Health cigar" and this is why: Every leaf of tobacco I work into Pharaoh is absolutely free of "gum."

You must know that a "gummy" tobacco will make a poor smoke and act injuriously on the throat and stomach. The gum, dissolved by the heat of combustion, is drawn into the mouth—becomes mixed with the saliva and finally reaches the stomach.

The membrane that lines your throat and stomach is pretty tough—but it won't stand the harsh, irritating action of this dissolved gum.

You'll have sore throat if you smoke the "gum" cigar—you'll have heartburn, indigestion, and a disagreeable taste in your mouth from an injured stomach.

With every particle of gum properly "sweated," cured and aged out of the leaf I use as filler for my Pharaoh, I can guarantee you a pure, cool, sweet, fragrant smoke—free from disagreeable tastes and injurious actions on the inner man.

## TORNADO SWEEPS

## ACROSS PORTION OF MINNESOTA

Two Killed and Several Injured.—  
Houses and Station Wrecked.

## Bulletin Special.

St. Paul, Minn., March 28th.—Sweeping over a wide area of country in the vicinity of St. Louis, a tornado did heavy damage yesterday including the wrecking of many houses in Louisburg, several grain elevators and the Great Northern depot at St. Louis. Two people were killed and several injured. A call for help came to Appleton and relief and wrecking trains were sent carrying doctors and hospital supplies.

## The Parisian Sunk.

## Bulletin Special.

Montreal, March 28.—Nine hundred passengers who were on board the Parisian when the latter was stove in near Halifax harbor arrived on two special trains, besides mails and three car loads of baggage saved before the Parisian sunk at the dock. The passengers tell thrilling tales of the excitement and terror that followed the collision. There was no panic however, and the instructions of the officers were so promptly and coolly carried out that the danger was reduced to a minimum.

## Cassie Goes Down.

## Bulletin Special.

Cleveland, March 28th.—Cassie Chadwick has been sentenced to 10 years imprisonment.

## A Soldier, not a Politician.

Yin Kow, Wednesday, March 22.—[2 p.m. via Tien Tsin 26.] Field Marshal Marquis Oyama today gave his first interview since coming into the field. He refused to discuss the probability of peace.

"I am only a soldier," he said, "not a politician. The Japanese government will arrange terms of peace when the time comes. We were forced to fight this war in the interests of international peace, and for the safety of our country. Personally, I have a high regard for the Russians. They are soldiers. The officers and men are brave and able and fight well. During the war between China and Japan I was the commander of the Japanese army which captured Port Arthur. With a division and a half of troops we took the city in five hours. The result and time shows the wonderful difference between the Russians and the Chinese, with whom we had previous experience. But our army, both soldiers and officers, performed their duty as Japan knew they would. I was Minister of War for Japan for sixteen years during the time the conscription laws were passed. I have closely watched the making of the Japanese army which has proved what I say. Officers and men have fulfilled every hope I believed they would in the olden days when the Japanese army was composed of the Samurai, professional fighting men.

"The modern army was drafted from all classes, yet all our hopes have been fully realized by the work this army has done in war."

## RESULTS OF THE FIRE DRILL

In less than fifty seconds, the Queen's avenue public school building was emptied of its 450 pupils after the fire gong in the building was rung yesterday afternoon.

The pupils from the youngest to the oldest throughout the entire school were busy at their books when suddenly the alarm of fire rang through the building, and with a quickness and precision that showed careful training, lines were formed and, keeping perfect time, the children marched out in the short time mentioned.

But recently the drill has been instituted in the Edmonton public schools, and it is largely through the efforts of Acting Principal H. E. Hutton that the present very efficient system has been established. The alarm is now sounded when the pupils are not expecting it, and the way that all respond is certainly a credit to their training, and for which many Edmonton parents may some day be thankful.

Yesterday demonstrated beyond a doubt that in the event of a fire the children would be perfectly safe and it is to be hoped that this drill is continued in all the schools of this city and probably the time will come when it will be the means of saving a good many lives.

## EDMONTON SANDSTONE.

Mr. Jos. McDonald left at the Bulletin office this morning a piece of sand stone taken from a quarry found on his property just east of the city. The stone is hard, of good color, and should make splendid building material.

The formation can be traced for 200 feet or over along the face of the river bank at the distance to which it extends back from the outcrop is unknown. Like the sandstone found elsewhere in the west, the Edmonton stone is quite soft when taken from the ground, but rapidly hardens in the open air.

Mr. McDonald is entirely satisfied with the quality and quantity of the stone and will develop the property and open a quarry.

## Sunlight Soap

is guaranteed perfectly pure, genuine, and free from adulteration—all dealers are authorized to return purchase money to anyone finding cause for complaint. Therefore you lose nothing by trying Sunlight Soap and you will agree with millions of other women that the Sunlight way is the only way to wash clothes.

## The Evils of Imitation.

Success breeds imitation.

Let a clever designer create a new hat or shoe or coat—and it is copied by every petty maker in the country.

Fit-Reform styles, Fit-Reform garments, Fit-Reform Wardrobes, are imitated. And the imitators' sole claim to popularity is that the imitations are "just as good" as Fit-Reform. NEVER BETTER—only "just as good."

Fit-Reform originates and creates styles—garments—methods.

## Fit-Reform

Dated at St. Paul, Minn., Ontario, 2nd March, 1905.  
HENRY C. HAMILTON,  
Solicitor for Applicants.  
dy 66 tf.

## WESTERN CANADA

## A THEME OF GREAT INTEREST

People of the Western States deeply interested in the Country.—Heavy Immigration Movement.

Calgary, March 27.—Col. G. E. Parker, in writing from Omaha, upon the great movement to the Canadian Northwest, says:

This is the centre of the tremendous movement towards the Canadian Northwest. Hundreds of farmers and stockmen from Kansas, Missouri, Iowa and Nebraska are gathering here for the trip northward. The district tributary to Omaha, has probably furnished more substantial settlers for Manitoba, Assiniboia and Alberta in the past three years than all other parts of the central west combined. There are sound reasons for this estimate too, because the country from which this element is drawn is similar in many respects to that of the Canadian West. For instance, Nebraska and Kansas but a generation ago was the semi-arid region of the vast prairie plateau between the Missouri river and the Rocky Mountains. Today it is a part of the wheat and corn belt, and the farmers of these semi-arid quarter sections supply nine-tenths of the fine beef that goes into the great stockyards of Chicago. The same men who were the pioneers of this section are today moving into Alberta and Assiniboia, to repeat what they did here.

Last night I went down to the great central hay market of South Omaha, ten miles south of the city of Omaha. Here all farmers and travelers passing overland gather to arrange their journeys of eight hundred to ten hundred miles to the Canadian Northwest. There were over a hundred big wagons, mostly drawn by eight fine mules, all making ready to start overland for Western Canada. These men for this part of the central west follow practically the old trail to Fort Benton, and then due north, keeping most of the time in the Missouri river valley. I talked with a number of these farmers, and most of them were off for Lethbridge, Edmonton, Calgary or Red Deer. There is a popular impression that the people of the United States are uninformed as to the conditions prevailing in Western Canada. That may be true as to the east and the west, but it certainly does not apply to the farming element of the Missouri valley. The atmosphere that has been created by the Western Canadian Immigration Association is largely responsible for this education of the rural districts. Most of these would-be settlers have their pockets stuffed with literature—daily papers—which tell of the "last great West," and the splendid chances for investment.

One can scarcely realize the astonishing interest throughout the central western States in Canadian affairs until he has travelled over Nebraska, South Dakota, Missouri or Iowa. It is the talk in the hotels, the dining cars, the day coaches at the depots and on the streets. The advertising that the Grand Trunk Pacific and provincial autonomy problem has given the Canadian Northwest in this region is inconceivable. This favorable advertising has come at the best time to stimulate the movements of the new settlers. The papers—the big metropolitan dailies—that might be expected to restrain as far as possible those who go to a foreign country, are publishing columns of matter daily about Canada for its new settlers purely. They realize that the public eye is on Canada, and they are catering to the public taste. At Chicago, St. Louis, and Kansas City, the reporters send their cards to the room of the man who registers from the great Canadian West almost as soon as the ink is dry on the book.

## Hello!Hello

HERE WE ARE AGAIN.

"I say, old man, that Wile Store  
is a clinking place to buy your fruit  
and tobacco at."

"I was up there this morning, and  
I'm blowed if I didn't get more there  
for ten cents than I could get any  
place else for fifty. I'll eat my hat."

"Half a mo', then, old chap, and  
we'll go up and get some good ci-  
gars."

## THE WEE STORE

For Fruit, Confectionary,  
and Tobacco.

## WANTED.

GOOD AGENTS FOR THE  
Oliver Typewriter

IN ALL

## UNOCCUPIED TERRITORY

Over 100,000 of these ma-  
chines have been sold in the  
U.S. within the last few years at  
the same price which is being  
charged for any other standard  
typewriter. This proves con-  
clusively that the OLIVER is  
the very best machine made re-  
gardless of price.

As there is now in Montreal  
a factory devoted exclusively to  
the manufacture of this machine,  
it can be bought in Canada for  
the same price at which it is sold  
in the U.S. without adding from  
\$25 to \$30 to cover duty and  
charges, as do all the other  
standard writers.

This should be a very attractive  
proposition to any purchaser of  
writing machines.

APPLY TO THE  
CANADIAN OLIVER  
TYPEWRITER CO.,  
183A T. JAMES STREET,  
MONTREAL.

SPECIAL COUNCIL MEETINGS  
SHOULD BE ANNOUNCED.

The regular meeting of the city council on Tuesday evening last broke up with the understanding that no special meetings for the transaction of general business would be held during the week. On Friday morning, however, it was learned that the council had met the previous evening and transacted business of very general importance and interest to the city. No public notice of the meeting had been given in any way and in consequence the press had no representative present. It is presumed that the meeting was called by His Worship, by private communication to the aldermen. It is further assumed that the failure to announce the meeting otherwise was due to accident or custom, not design.

While having no desire to find cause for quarrel with His Worship the mayor, or the city council, the Bulletin very respectfully, but none the less emphatically, takes the ground that special meetings of this public body should be publicly announced. It is not contended that the letter of this obligation will be found in the city charter, but it is submitted that it is thoroughly in keeping with the spirit and purpose of every clause of the charter touching the relationship of the city council and the public, and that the failure to so announce such meetings is to frustrate by practice the ends which the charter seeks to secure by law. The apparent and unmistakable purpose of the charter in this respect is that the fullest information shall be given the citizens regarding civic affairs and to transact the public business in a manner which prevents the prompt and full publication of this information is to practically annul this portion of the charter.

The aldermen might well make provision for the accomplishment of the purpose of the charter by adopting the rule that the press be duly notified of all special meetings of the council.

## WINTERBURN

Winterburn, March 27th—Mr. Emery's family have just moved into their new house, which was erected close beside the old dwelling. The new one is a fine and very comfortable log house.

The young men in the neighborhood of the post office have taken advantage of the fine weather to indulge in a game of croquet on the grounds in front of that spacious building.

Divine services were held in the Presbyterian church on the Sabbath morning by Rev. Mr. Livingstone, the sermon was an excellent one, and listened to with marked interest by the congregation. Miss Melburn presided at the organ. Mr. Livingstone expects to go to the Old Country this summer.

Farmers in this neighborhood are somewhat undecided about seeding. The early season may be followed by frosts that would damage the grain if it was sown. Some have concluded that it will be alright to go ahead at once, others holding back.

The McLellan Bros. are in possession of their newly acquired half section, have purchased a splendid trio of working mares, and are going to turn over a lot of soil at once. They are also putting up a frame shack facing the base line, besides this they have rented a quarter section from Mr. Weiburn and will put in seed early.

Miss Little the talented young school teacher of this section reports her classes as doing well, with no unruly members. She is highly esteemed and praised for her good work.

Mr. Pinchback who has been working a quarter section rented from Mr. Melburn, has purchased a fine half section from the latter gentleman south of the base line, in the reserve. His herd of cows and young cattle strayed from their own premises on Saturday and gave their owner a long search. Mr. Pinchback and family just a year out from England.

## Prosperity and Progress

The volume of business transacted by the Mutual Life of Canada during 1904 exceeds that of any previous year. Over Five Million Dollars of new business was written, making the total Assurances now in force nearly Forty and a Half Millions of Dollars. All but Thirty Thousand Dollars of the new business was written within the Dominion. The Mutual Life of Canada is essentially a Canadian Company, and believes that good Canadian business is preferable to foreign business, which is secured at excessive cost and is often of poor quality. Good home business, and lots of it, means more profits to Canadian policy holders.

LARUE & PICARD.  
The Maple Leaf Store.

PHONE 47

I ALWAYS select the tobacco leaves that grow about the middle of the stalk. I find this leaf as filler in my Pharaoh is best because it is perfectly and uniformly ripened

and contains just enough gum to sweat properly and so promote the proper curing. The top leaves of the plants I reject—they are too tender and gummy and contain so much of the rancid bitterness of the tobacco that it would take me five years to sweat them out properly—even then they would not be satisfactory.

Then I see that the immature—torn—broken and injured leaves are discarded. The filler of my Pharaoh contains only clear—well—ripened—well—matured—well—cured leaves—the select of each year's Cuban crop.

J. BRUCE PAYNE, Limited, Gresham, P.Q.

Held together by the Company's brand and wrapped in a double banana wrapper. I suggest that you try it—the best tobacco money can buy—life's only Pharaoh is good.—J.B.P.

## EDMONTON ALTA. CANADA

POPULATION, 7,500

## CITY GOVERNMENT:-

Mayor, K. W. MacKenzie; Aldermen, C. May, K. A. McLeod, W. H. Clark, D. R. Fraser, J. R. Boyle, T. Bellamy, J. H. Picard, W. A. Griesbach.

Conveniences:- Waterworks, sewer systems, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:- President, J. H. Morris, Secretary, F. F. Tims.

Immigration Officer:- C. W. Sutter.

Educational Institutions:- Public and separate schools, high school, Alberta College.

CHURCHES:- Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:- Leaves for Strathcona 7.45 and 10.30. Arrives from Strathcona 9.15 and 11.50.

## LOCAL

-Train on time.

-Probs.-Fair to-day and on Wednesday not quite as mild. Temperature records.

-The city council meets this evening.

-Ducks are reported to have been seen on many of the lakes throughout the country.

-J. Wright auctioneer will conduct a sale of furniture, &c., at the residence of C. H. Jacques, corner May and First streets on Tuesday at 1 p.m.

-Qu'Appelle Progress.-A fatal accident occurred a few miles north of here on Tuesday, March 28, the 16 month old child of Mr. and Mrs. Irving, gained access to a quantity of lye and swallowed a portion of it. Every effort was made to save the little one, but in vain. The funeral takes place to-day.

-Calgary Herald.-The proposed hockey contest between the men of the Yukon and the men of Calgary has been declared off. When the team from the east arrived this morning, H. O. Eakins, the local manager, found that only four of the Yukon team were on board and they stayed there. The others are lingering in the east, some being disabled others visiting friends.

-Messrs. Saunders and Driscoll have prepared a new sketch map of Edmonton, Strathcona and the immediate vicinity. The map is drawn on a scale of 20 chains to the inch. Circles of 1-2 mile, 1 mile, 1/2 mile and 1/4 mile radius are drawn with the Edmonton post office as centre. The larger circle about reaches the northern boundary of the city, and the southern boundary of Strathcona.

-Moose Jaw Signal: On Wednesday last what nearly proved to be a fatal accident occurred at the foot of Manitoba street, when Leonard Plaxton, the young son of Mr. G. P. Plaxton, was rescued from drowning just in the nick of time. The child was playing with companions in the vicinity of the new bridge, and ventured to walk across the river on the ice at that point. Before proceeding a great distance from the shore the little fellow broke through the ice, and it did not seem for the prompt action of Mr. Thos. Neale, he would in all probability have been drowned.

-Lethbridge News: Mr. R. G. Matthews, of Macleod, visited Lethbridge Thursday and examined some seventy or more hides of cattle recently killed by the C. P. R. near Taber, forty of the number being killed at one time. The brands were owned mostly by people in that vicinity but others as far afield as Medicine Hat, Montana, New Oxley, and the Milk River Ridge country. It is reported that the dead animals had been skinned by the section men and sold through another party to the buyer, a Montana hide company.

-Free Press.-H. G. Cantley, D.L.S., passed through the city yesterday on his way to Edmonton where he and his brother, W. G. Cantley, practice their profession. Mr. Cantley reports that his brother is at present running a base line for the Government somewhere between Peace River and the Athabasca. W. G. Cantley was in Dawson in the early days and was mining inspector on Huker Creek. This position he resigned to enter into partnership with Mr. Cote, late of the surveyor general's staff. Mr. Cantley has recently been in England and reports that Chamberlain is not so much before the people as he once was. He also reports spring as being much more advanced here than in Ontario.

-Regina Standard: A young man named Milton Mathers, aged 32, residing at Balgonie, died at that place Tuesday, under very peculiar circumstances. On Sunday last deceased returned to Balgonie from a trip west for his health. On alighting from the train, he drew \$530 from his pocket and handed it to an acquaintance who happened to be at that station. Shortly after this Mathers complained of being sick, and three or four hours later his condition became precarious, in fact, medical assistance from the city was wired for and Dr. Thompson left on the first train for Balgonie. On arriving, he saw that the patient was a very sick man, and notwithstanding all efforts, he died a few minutes after the doctor's arrival.

## YOUNG PEOPLE'S PARTY.

The union meeting in the Presbyterian church last night, composed of the Baptist, Methodist and Presbyterian young people's societies, was largely attended and one of the best of the season. Mr. McEduards of the Presbyterian Society presided. Miss Brill (Baptist) introduced the subject "Fellowship", in a most acceptable manner. Prof. Rice of Alberta College, also gave an address on this subject. A motion was proposed by Rev. Mr. McDonald, and carried, to the effect that a local union be formed. A committee composed of the Presidents and Vice Presidents of the three societies were appointed to prepare a plan and report within three months. It was felt that such a gathering of young people could not fail to be enthusiastic and that the best of results would follow.

## WINNIPEG MARKETS.
